

DIAGNOSIS AND TESTING (Continued)

Wiper Motor Current Draw, Front

Tools Required:

- Rotunda Starting and Charging Tester 078-00005

CAUTION: Do not handle any windshield wiper motor abusively when diagnosing wiper operations, because it will damage the magnets and make the motor inoperative. Rough handling of new replacement motors may also damage the magnets.

SWITCH POSITION	WIPER MOTOR CURRENT DRAW (Amps)
OFF	0.0
ON	1.5 - 2.0
WASH (ON)	1.5 - 2.0
