

DESCRIPTION (Continued)

NOTAR390

Item	Part Number	Description
1	3F655	Retainer Assy
2	3B592	Shaft Seal
3	3A643	Pump Housing Plate
4	387572-S100	Seal
5	3D596	Belleville Spring
6	387569-S100	Seal
7	3875700-S100	Seal
8	387579-S	Dowel Pin (2 Req'd)
9	3D590	Lower Plate
10	3D607	Cam and Rotor Assy
11	3B599	Shaft

Item	Part Number	Description
12	3C544	Valve Cover Assy
13	3A578	Reservoir
14	387573-S	Retaining Ring
15	3A645	Upper Plate
16	3B604	Valve Body
17	389349-S	Seal
18	3A006	Dipstick
19	3D653	Outlet Fitting
20	384975-S94	Seal
21	3D586	Spring

Power Steering Hoses

The power steering hoses use O-ring seals at the quick connect fittings. Note that there are two possible leak points.

Power Steering Pump and Gear Connection

Atsugi Steering Pump

The Atsugi power steering pump is a belt driven, vane-type power steering pump. The pump uses a remote reservoir mounted on the RH fender apron, an oil cooler and a special quick connect fitting at the pump outlet.
