Setting Time	13-07-1	Clock	13-07-3
DIAGNOSIS AND TESTING	13-07-1	VEHICLE APPLICATION	13-07-1

VEHICLE APPLICATION
Taurus / Sable.

DESCRIPTION AND OPERATION

The electronic digital clock displays time in a 12-hour format. Display dims when headlamps are on.

Setting Time

1. Press and hold H button until desired hour is displayed.
2. Press and hold M button until desired minute is displayed.

K17224-A

DIAGNOSIS AND TESTING

The clock is serviced as an assembly. An inoperable clock should be removed and returned to a service center (shown on part number label on clock case) to be serviced. The clock will be replaced with a functioning clock.

NOTE: Display illuminates with the ignition switch in the ACC or RUN position.
